RESOLUTION 2026-080

**A RESOLUTION OF THE BOARD OF COUNTY
COMMISSIONERS OF NASSAU COUNTY, FLORIDA
DECLARING A LOCAL STATE OF EMERGENCY IN NASSAU
COUNTY RELATED TO OPEN BURNING AND BRUSH FIRES**

WHEREAS, the National Weather Service and Florida Forest Service have identified that Nassau County continues to experience extremely dry conditions that are forecast to persist for at least a week and that these conditions have created extreme drought conditions and high fire danger for Nassau County; and

WHEREAS, the Keetch-Bynum Drought Index (KBDI) for Nassau County has steadily crept upward and as of April 14, 2026, was at 541 denoting significant danger of fire, with drought conditions expected to remain high for the next two weeks; and

WHEREAS, due to the extended dry conditions, wooded and grassy areas near homes, businesses, and agricultural production activities are growing more combustible as the dry conditions increase with little to no rainfall; and

WHEREAS, the Nassau County Fire Rescue Chief and Emergency Management Executive Policy Group advise that the risk of forest and brush fires in Nassau County is high given weather and ecological conditions and that open fires, and even playing with or discharging fireworks or other combustibles in any form, could cause wildfires that pose a severe threat to the health, safety and property of residents and visitors within Nassau County; and

WHEREAS, to protect our residents, visitors, businesses, and their property, the County must aggressively minimize the risk of wildfire through rules promulgated by way of this Declaration; and

WHEREAS, Section 252.38, Florida Statutes, states that “[s]afeguarding the life and property of [the county’s] citizens is an innate responsibility of the governing body of each political subdivision of the state”, and further grants to the County the power to provide for the health and safety of persons and property and to waive the procedures and formalities otherwise required of the County pertaining to taking whatever prudent action is necessary to ensure the health, safety and welfare of the community; and
