

# Get Your Amateur Radio ("Ham") License Tutored In-Person Class + FCC Testing

## Class Schedule

This is a FREE 7-week class held in person at the Nassau Emergency Operations Center (EOC) on Wednesdays from 7pm to 9pm.

Class starts **19-March-2025** and ends with your official FCC exam on 30-April-2025.

**Even with no prior experience or technical knowledge you too can get your FCC license just like 100s of students in prior classes!** I've graduated people as fresh as 8 and as ripe as 80.

## Class Location

The EOC is at 77150 Citizen's Circle, Yulee, FL 32097 just a short distance off Hwy 200 & I-95 in Yulee Florida.

## What to Bring to Class

All you'll need is a pen and paper and *a desire to learn*. I'll provide a printed hand-out and links to online (and smartphone) resources. **No textbook is required.**

I really do "leave no student behind" 😊, so no matter your technical background, you can do this, and join our vibrant Amateur Radio community.

## Why Join Amateur Radio?

Radio is fun all the time, but during the stormiest skies is when HAM radio shines the brightest!

HAMs have long provided emergency support just as we proudly serve Nassau county today, not just during emergencies, but every day in fair weather too.

As a HAM, you always have someone to call!

## The FCC Exam

The exam is multiple choice and administered on the final day of class. You'll know your score within minutes and will receive your new call sign a few days later.

***The ARRL fee for the test is \$15 payable in cash on the last day of class. The FCC will bill you \$35 to issue your new license. Those are the only fees required and your license lasts for 10 years.***

## Concurrent General License Class!

There are three levels of amateur radio license. I'll be teaching both the Technician license and the General license. Many of my students have gone direct to the General license.

If you already have your Technician license, now is the perfect time to review the basics, since you'll be retested on all of it for General exam.

**TO REGISTER FOR CLASS NOW or to ask questions!**

Email [course@N7LER.com](mailto:course@N7LER.com) with your name & phone#.

Note: This class is only possible because of the active sponsorship of the Nassau County Department of Emergency Management
